WORK EXPERIENCE

Software Engineer Intern BambooHR

May 2024 – Current

Worked as a full-stack engineer with an emphasis on backend development. Worked with the team in charge of employee community, a social network for employees. Led the transition from a VM-based setup to a Docker-based setup. Worked on a company-wide redesign of the BambooHR front-end application.

Technologies: React, Typescript, Python, PHP, SQL, Docker, Git, Agile, Jira

chAInd (AI Generated Social Network)

Feb 2024 – Current

Developed a social network where all content is generated by AI personalities. Users can create and choose the personality of their AI, but are not allowed to generate any content themselves.

Technologies: React, Laravel, Tailwind, AWS (Elastic Beanstalk, RDS, S3), PHP, MySQL, InertiaJS, OpenAI API

SimpleNotes (Lecture Transcription and Summarization Web App)

Nov 2023 – Feb 2024

Developed a React-based web application designed to assist students in transcribing and summarizing lecture audio into notes.

Technologies: React, Express, Deepgram API, OpenAI API, AWS (Elastic Beanstalk, RDS, S3), Django, User Authentication, PDF Generation, JWT, JSON, Bootstrap

Agario Game (Network Client based Game)

Feb 2023 – Apr 2023

Created a game resembling Agario using C# with support for players over a network.

Technologies: C#, Networking, Socket Programming, Web Development, SQL Database, Serialization, MAUI

Business Scholars Club

Jan 2021 – Jan 2022

Attend local company visits and discussions with top professionals to increase understanding of best business practices.

Sales Manager - Nomo Pest Solutions

Sep 2020 – May 2024

Recruited and trained 3 sales representatives using hands-on techniques and constructive feedback generating over \$1 Million of revenue in 12 months.

Technologies: Sales, Training, Management, Recruiting, Customer Service

Volunteer Church Representative - São Paulo, Brazil

Sep 2017 – Aug 2019

Managed and coordinated activities, living quarters, and security for groups of 20 to 30 young adults.

Technologies: Leadership, Management, Coordination, Fluent in Portuguese

SKILLS

Technologies: OpenAI API, React, InertiaJS, Laravel, MySQL, PHP, Tailwind, Django, Express, AWS, DeepgramAI, OpenAI, Vercel
